## OBJECTIVE

A passionate recent graduate from Al-Hussein Bin Talal University specializing in backend Web Development and holding a bachelor degree in Software Engineering (SE). I am currently enhancing my skills at Orange Coding Academy through intensive training in web development. Throughout my journey, I have successfully completed 6 projects at Orange Coding Academy, taking on various roles such as Scrum Master, Quality Accurance and Web Developer, where I honed my technical skills and collaborated with diverse teams to deliver impactful results. I am eager to continuously develop my expertise and contribute to meaningful projects in the web development field.

## Technical Skills

**Frontend:** HTML, CSS, Java Script, Tailwind CSS, Bootstrap , React.js, Redux Toolkit .
**Backend:** Node.js, Express.js, Next.js, PHP, C#.
**Database:** MongoDB, MySQL, PostgresSQL,
Firebase
**Project Management Tool**: Trello.
**Software Development Practices (SDLC):** Scrum,QA, Agile.
**Tools:** Postman, Figma, Git(Version Control Systems) using Github, JOOMLA, Odoo.

## Soft Skills

| Effective Communication<br>Attention to Detail<br>Team Leadership | Team Collaboration<br>Continuous Learning<br>Time Management | Self Learning<br>Critical Thinking |
|---|---|---|

## Experience

**Trainee at Coding Academy by Orange**  Dec 2024 – Present

- Completed an intensive Full-Stack Web Development course in partnership with Simplon.co and Princess Sumaya University for Technology (PSUT).
- Gained hands-on experience with the MERN stack (MongoDB, Express.js, React.js, Node.js) through practical projects and coding Tasks.
- Developed Full Stack applications, enhancing skills in both frontend and backend development.
- Participated in collaborative projects, applying Agile methodologies to manage and deliver high-quality solutions.

**Trainee at Kabsetzr Co.**  Jul 2021– Sep 2023

- Build reusable code that could be utilized in other projects.
- Build and design themes and templates.
- Apply plugins according to client's requirements.
- Specialized in frontend developing using JOOMLA platform which is same as WordPress.
- Monitored operations to ensure employees followed relevant procedures and instructions.

## Projects

1) **Charity services web application** [GitHub Repository]
   **Description**: user-friendly web application that will streamline the operations of a charity organization and enhance the ability to serve those in need.
   **Tools used:**
   • PERN Stack (PostgreSQL, Express.js, React.js, Node.js, Tailwind CSS, Sequelize).
   • Figma, Trello, Github.

   **Role**: Developer

2) **Rental platform(SportCo.)** [GitHub Repository]
   **Description** web application enables users to explore and rent courts, making the rental process more convenient and efficient for renters and landlords. It allows users to browse available properties, view detailed virtual tours, and complete the rental process online. Additionally, landlords or property managers can list their properties, manage availability, and interact with potential renters.
   **Tools used:**
   •React js, Redux toolkit, Firebase, Tailwind CSS.
   • Figma, Trello, Github, Leaflet.

   **Role**: Scrum Master

3) **Hospital management system(VetNova.)** [GitHub Repository]
   **Description** fully responsive hospital management system using Next.js (App Router). The system will manage hospital operations, including patient records, appointments, billing, and staff schedules.
   **Tools used:**
   •Next.js, MongoDB.
   • Figma, Trello, Github

   **Role**: Scrum Master

4) **News Website(Al-Yaqeen)**[GitHub Repository]
   **Description** dynamic news platform designed to provide real-time updates, engaging articles, and interactive features for readers and journalists. PIt allows users to explore news articles across various categories and allows journalists to create, publish, and manage content.
   **Tools used:**
   •MongoDB with mongoose, Express js, React js, Node js.
   • Figma, Trello, Github.

   **Role**: Product Owner

# Education

**Coding Academy by Orange** - Zarqa, Jordan                     **Dec 2024 - Present**
- 6-Month Full Stack Web Development Bootcamp.
- MERN stack.
- Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT)

**Al-Hussein Bin Talal University** – Ma'an, Jordan                     **2020 - 2024**
Bachelor's in Software Engineering
Conferences and Training Attended:

- Dual study (GIZ) training program during my university study.
