Omar Ghassan Abu Deyak

FULL STACK DEVELOPER

Jordan | +962 796236938| omargn.abudiak@gmail.com | Linkedin | Github

As a passionate Full Stack Developer, I bring a strong foundation in crafting user-friendly web applications, with expertise in both front-end and back-end development. Through my journey at Orange Coding Academy, where I completed 8 impactful projects, and various internships, I've sharpened my skills in HTML, CSS, JavaScript, React, PHP, Laravel, and RESTful APIs. I'm dedicated to writing clean, efficient code and delivering creative solutions. I'm excited to bring my technical know-how to a dynamic team, where I can help build scalable and high-performing web applications that make a real difference.

TECHNICAL SKILLS

- **Frontend**: HTML, CSS, JavaScript, Bootstrap, React.
- **Backend**: PHP, Laravel, C# ASP.NET MVC

- **Tools** : Github, Figma, Trello, Postman
- **Database:** SQL Server, MySQL
- **Software Development Practices (SDLC):** Agile Scrum

SOFT SKILLS

- **Problem-Solving**
- **Communication**
- **Critical Thinking**
- **Fast and Self Learning**

- **Teamwork**
- **Adaptability**
- **Attention to Details**
- **Creativity**

EXPERIENCE

Full-Stack Web Development Trainee | Orange Coding Academy, Amman/Jordan
01/2025 – Present

- **Front-end:** Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, and React, enhancing the user experience with clean UI/UX principles.
- **Back-end**: Built and maintained web applications using PHP and Laravel. Ensured efficient data management and scalability by consuming APIs and integrating back-end services.
- **Database**: Managed and optimized SQL Server databases. Created and executed queries for efficient data retrieval, and ensured database performance.
- **Project Work**: Delivered 8 full-stack web projects, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.
- **Collaboration**: Worked closely with teams to implement project requirements and ensure the seamless integration of front-end and back-end systems.

Oracle Technical Consultant Intern| Software Consultancy Co.
04/2024 – 08/2024

- Specialized in two key areas: Reporting and Integration.
- Developed expertise in creating comprehensive reports and extracting data from databases.
- Built integrations between various systems using industry best practices.
- Configured web APIs to enable seamless communication between applications.
- Established and maintained database connections to facilitate efficient data transfer between platforms.

Full Stack Web Development Bootcamp| Al-Hussien Technical University (HTU)
11/2023 – 03/2024

- **Front-end:** Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, and React JS.
- **Back-end:** Built robust back-end systems with Node JS, MongoDB, and RESTful Web APIs.
- **Full-Stack:** Created complete web applications using the MERN stack (MongoDB, Express, React, Node).
- **Projects:** Delivered multiple projects demonstrating proficiency in modern web development techniques.

Full Stack Developer Intern | Al-Fanar Digital Solutions
07/2023 – 09/2023

- **Front-end:** Developed interactive user interfaces using Angular framework, implementing responsive design patterns and component-based architecture.
- **Back-end:** Built robust server-side applications with Entity Framework Core, focusing on code-first development and efficient data access patterns.
- **API Development:** Designed and implemented RESTful Web APIs to enable seamless communication between front-end and back-end systems.
- **Integration:** Orchestrated full-stack integration, ensuring proper data flow and functionality across all layers of the application architecture.

EDUCATION

Bachelor Degree in Computer Science |Applied Science Private University
09/2019 – 09/2023

- GPA: 3.3/4.0 (Very Good)

PROJECTS

- **Talent Wave(Github):** A HR management system that focuses on the Employee Self Services (ESS), which includes the features to clock in, clock out, leave requests, upload employee requested documents. An admin dashboard for HRs to add new employees, view employees information and attendances, view each of employees leaves requests and uploaded documents with the ability to accept or reject them, using Laravel for backend and Blade built-in for the frontend.

- **Hasanah (حسنة) (Github):** First Place Award Winning project at "Code For Good" Hackathon at Orange Coding Academy. Developed a dynamic charity website that enables people to donate and enroll in volunteering activities, with features for exploring donation and volunteering opportunities, donating, volunteering, user authentication, and user profile to view previous activities, using HTML, CSS, JavaScript, and Bootstrap.

- **People Tales (Github):** Developed a dynamic ecommerce website that sells cultural products from different countries with features for exploring products, adding to cart, order placement, user authentication, and admin dashboard, using PHP, MVC, and MySQL.

- **Cars Rental System (Github):** Developed a cars rental system with user authentication, rental management, and user profile with rental history, using HTML, CSS, Bootstrap, and JavaScript.

- **Taskies (Github):** a MERN Stack based platform for managing tasks with features to add, edit, and view tasks, featuring a responsive design and intuitive dashboard.
