MOAWIAH EQAILAN

FULL STACK DEVELOPER

Jordan | +962 792667253 | moawiah.eqailan@gmail.com | **Linkedin** | **Github**

Full Stack Developer with a strong foundation in developing user-centric web applications, specializing in both front-end and back-end technologies. Gained extensive hands-on experience through completing several projects at Orange Coding Academy. Proficient in HTML5, CSS3, JavaScript, React.js, PHP, MySQL, and Laravel, with a passion for writing clean, efficient code and delivering innovative solutions. Eager to apply my technical expertise to a dynamic and forward-thinking web development team.

TECHNICAL SKILLS

- **Frontend**: HTML5, CSS3, JavaScript, Bootstrap,and React.js .

- **Backend**: PHP, Laravel .

- **Tools** : VS Code, Github, GitBash, Figma

- **Database:** MySQL .

- **Software Development Practices (SDLC):** Waterfall, Agile

SOFT SKILLS

- **Strong communication and teamwork**

- **Proficient problem solver, adept at collaborating whit diverse teams.**

- **Quick learner, open to feedback, and committed to continuous growth.**

- **Skilled in time management , organization ,and task prioritization .**

EXPERIENCE

- **Full-Stack Web Development Trainee | Orange Coding Academy, Amman/Jordan**
  09/2024 – Present

  - **Front-end**: I learned to develop interactive and responsive user interfaces using HTML5, CSS3, JavaScript, and React.js, focusing on improving user experience through clean and appealing UI design.
  - **Back-end:** I gained experience in developing applications using PHP and Laravel, focusing on efficient data management and integrating back-end services.
  - **Database**: I learned to manage databases using MySQL, including creating and executing queries for efficient data retrieval and optimizing database performance.
  - **Project Work**: I applied the skills acquired to real-world projects, helping me build scalable, maintainable, and high-performance applications.

  - **Collaboration:** I learned the importance of teamwork and collaborating with teams to implement project requirements and ensure seamless integration of front-end and back-end systems.

PROJECTS

- [Go movies](#) : Developed a movie streaming website featuring dynamic content, responsive design, and an intuitive user interface. Implemented features like movie categorization, detailed movie pages, and user-friendly navigation using HTML5, CSS3, JavaScript, PHP, MySQL, Laravel, and React.js. Contributed to front-end development, database integration, and performance optimization to enhance the user experience.

- Gaming Accessories Website – [Gamify Tech](#): Collaborated with a team of five to develop a dynamic and responsive gaming accessories website. Utilized HTML5, CSS3, JavaScript, PHP, and MySQL to design a seamless user experience. Contributed to front-end development, database integration, and performance optimization to meet gamers' needs.

- [Movie maze](#) : Led a team of five as Scrum Master to develop a movie website using HTML5, CSS3, JavaScript, and a custom API. Designed a dynamic and responsive user interface, integrated real-time movie data, and ensured seamless API functionality while managing project progress and team collaboration.HR Management System

EDUCATION

- **Full-Stack Development Bootcamp | Orange Coding Academy**

  9/2024 – Present

  Intensive course in Full Stack Web Development by Orange Coding Academy in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

- **Bachelor's degree in Software Engineering | Philadelphia University**

  2019 – 2024

  Import X (Graduation Project) Using Asp.net Core 7.

  Import X is a revolutionary platform that simplifies the process of importing cars from the USA, offering comprehensive solutions from regulatory complexities to compliance, aiming to redefine international car imports by providing transparency, efficiency, and a stress-free journey.
