Full Stack Web Developer

CAREER OBJECTIVE

A passionate and dedicated software developer with hands-on experience in web development through internships and academic training. Skilled in Angular, Laravel, and PHP, with a strong foundation in both backend and frontend development. Adept at problem-solving, analytical thinking, and building efficient web applications. Strong collaboration and communication skills, demonstrated through teamwork and group interviews at Orange Academy. Eager to apply technical expertise, continuously learn, and contribute to innovative software solutions in a dynamic work environment.

Core Competencies

Software Development	Critical Thinking	Time Management
Process Evaluation	Problem-Solving Ability	Problem-Solving Ability
Performance Review	Project Management	Effective Communication
Data Analytics Skills	Creativity and Innovation	Attention to Detail
Requirement Analysis	Customer-Centric Approach	Team Collaboration

Technical Knowledge

Programming Languages: Python, Java, C++, JavaScript, HTML/CSS,

Database: SQL, MySQL, SQL Server

Operating Systems: Windows, Linux/Unix

Software Development Practices (SDLC): Scrum, Agile

Other Tools: MS Office (Word, Excel, PowerPoint), Git (Version Control Systems)

Internship

Orange Coding Academy (Dec 2024 – present) Intern, Full Stack Development Experience:

- Assisted in the development and maintenance of web applications, gaining hands-on experience in both front-end and back-end technologies.
- Contributed to the implementation of database management solutions, improving data integrity and performance.
- Supported the deployment and integration of software solutions, gaining insights into scalable application development.
- Worked with technologies such as Laravel, and PHP to develop and enhance web-based systems.
- Collaborated with a team to troubleshoot and resolve technical issues, enhancing problem-solving and debugging skills.
- Participated in code reviews and followed best practices for software development and version control.
- Engaged in Agile development practices, attending team meetings and contributing to project planning.

Academic Projects

1) SUBAS E-Commerce Platform
Description: SUBAS is a complete e-commerce platform developed to provide a seamless shopping experience for electronics enthusiasts. The platform allows users to browse products by category, easily search and filter items, and complete purchases with an intuitive shopping cart system. Users can also leave reviews and ratings for products. The admin dashboard provides comprehensive control over sales, user analytics, product management, categories, orders, and revenue tracking, offering valuable insights into platform performance. Built with PHP, the platform ensures a user-friendly and robust e-commerce solution.

2) **Car Rental System (Laravel-)**

- Developed a car rental management system using Laravel 10.
- Implemented authentication and role-based access control with Laravel Authentication.
- Designed and optimized MySQL database structure for storing cars, bookings, and user data.
- Created RESTful APIs to manage bookings, car availability, and rental processes.
- Ensured secure user authentication and authorization using Laravel Sanctum.

Education & Credentials

Philadelphia University , Jordan

Bachelor's Degree in Computer Science 2017 - 2023

AL-HUSSEIN TECHNICAL UNIVERSITY, Jordan 2023 – 2024
- SQL Server Certification (180 Hours)
   -Data Analytics & Power BI (180 Hours)
- Advanced English Course (60 Hours)- Soft Skills Training (80 Hour

Personal Information

- **Nationality: Jordanian**
- **Date of Birth:** 12 March 1996
