Full-Stack Web Developer

CAREER OBJECTIVE

Full-Stack Developer trained at Orange Coding Academy, with proficiency in HTML, CSS, JavaScript, ASP.NET Core MVC, and CORE API. I am passionate about creating innovative and dynamic web applications that deliver seamless user experiences and meet modern industry standards. Skilled in both front-end and back-end development, I leverage frameworks like Bootstrap and Angular to craft responsive and scalable solutions. My expertise extends to database management using SQL Server and developing feature-rich applications with ASP.NET Core MVC. As a Cyber Security graduate from Yarmouk University, I am dedicated to continuous learning and thrive in agile environments where collaboration and problem-solving drive results. Ready to contribute now.

Technical Skills

Front End: HTML, CSS, JavaScript, Bootstrap, TypeScript, Web Forms, Angular.
Back End: C#, ASP.NET CORE MVC, ASP.NET CORE API.
Other Programming Languages: Python, Java, PHP.
Database: SQL Server, MySQL.
Software Development Practices (SDLC): Scrum, Agile, OOP, Three Tier Architecture.
Tools: Git (Version Control Systems), GitHub, Visual Studio, Visual Studio Code, SQL server Management Studio, MySQL Workbench.

Soft Skills

Adaptability & Resilience	Emotional Intelligence	Effective Communication
Critical Thinking	Problem-Solving	Creativity & Innovation
Leadership & Initiative	Persuasion & Influence	Networking & Relationship Building
AI Literacy	Agile Project Management	Time Management & Organization
Presentation Skills	Decision Making	Tech Savviness & Digital Literacy

Experience

Nabtaty, Amman/Jordan   **May 2025 - June 2025**
Web Development Intern
Work Experiences:

- Developed a multilingual, SEO-optimized plant sales platform.
- Worked with Angular 18, ASP.NET Core 8, MySQL, JWT authentication.
- Contributed to connecting MySQL with the project and implemented dual-language support.
- Developed user profile, password reset, purchase history, and login/admin features.
- Currently enhancing the admin dashboard.

Orange Coding Academy, Irbid/Jordan   **Dec 2024 – June 2025**
Full-Stack Web Development Trainee
<u>**Work Experiences:**</u>

- Successfully completed comprehensive training in full-stack development, covering both front-end and back-end technologies.
- Developed and maintained dynamic web applications utilizing HTML/CSS, JavaScript, C#, TypeScript, and Angular.
- Implemented responsive web designs and user interfaces using Bootstrap and Angular frameworks.
- Managed and queried databases effectively using SQL and SQL Server.

Projects

1) HR Management System ([Git Hub](#))
Description: A web-based system optimizing HR operations with login, profile management, attendance tracking, task assignment, and leave management.
Features & Role: Includes optional password encryption (Bcrypt), voice search, fingerprint login, and PDF export. I developed task assignment, yearly evaluations, and PDF reporting.
Technologies Used: HTML, CSS, JavaScript, ASP.NET Core MVC.

2) Library Management System ([Git Hub](#))
Description: A web-based system designed to optimize university library operations, allowing students to register, borrow books, reserve meeting rooms, and provide feedback. Library owners efficiently manage books, reservations, and view feedback**.**
Features & Role: Includes optional in-app notifications, Google login for easy access, and feedback analytics with visual charts. I developed the edit profile, reset password, and contact us (feedback) functionalities.
Technologies Used: HTML, CSS, JavaScript, ASP.NET Web Forms.

3) Quiz Website ([Git Hub](#))
Description: A web-based platform designed to assess candidates' skills through multiple-choice quizzes, including IQ, English, and technical tests. It offers a smooth user experience with essential pages like Home, About Us, Contact Us, Registration, Login, Profile, and Test functionalities.
Features & Role: Includes optional additional exams, reset password functionality, and downloadable test results (PDF/Excel). I developed the login, registration, profile management, profile editing, logout, and password change functionalities.
Technologies Used: HTML, CSS, JavaScript.

Education

Full-Stack Web Development Bootcamp – Orange Coding Academy   Dec 2024 – June 2025
Intensive course in Full-Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Yarmouk University   **Jan 2020 – Feb 2024**
Bachelor's degree in Cybersecurity.

Courses & Certificates

1) English Language Certificate (British Council – Jordan).
2) Course in HTML Scripting Language (Orange Coursat).
3) Course in CSS Scripting Language (Orange Coursat).
4) Course in Java Script Programming Language (Orange Coursat).
5) Certificate of Attendance for Cyber Warriors Competition (National Cyber Security Center).
