Hala A. Abu Shehab

Full Stack Developer

📞 +962 787967253 | 📍 Jordan | 📧 hala.abushiihab@gmail.com

Summary

Results-driven Full Stack Developer with a strong foundation in software engineering and over 900 hours of intensive training at Orange Coding Academy. Proficient in developing scalable and dynamic web applications using modern frameworks such as React, Node.js, and Spring Boot. Former structural designer with a problem-solving mindset and an eye for detail. Demonstrated ability to deliver full-stack projects and collaborate effectively in agile team environments. Seeking opportunities to contribute to innovative and impactful tech solutions.

Technical Skills

- **Languages & Scripting:** HTML5, CSS3, JavaScript, SQL, PL/SQL

- **Frontend:** React.js, Next.js, Redux, Tailwind CSS, Bootstrap

- **Backend:** Node.js, Express.js, Spring Boot (MVC, Data, Security), Sequelize

- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase

- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Trello, Figma, Firebase Auth, JWT, Discord

- **Development Practices:** MVC Architecture, RESTful APIs, Agile Development, Responsive Design

Soft Skills

- Problem Solving & Critical Thinking

- Fast Learning & Adaptability

- Team Collaboration & Communication

- Attention to Detail

- Time Management

- Presentation & Public Speaking

Experience

Full Stack Web Development Trainee
Orange Coding Academy – Jordan | Dec 2024 – Present

Engineered responsive and user-friendly interfaces using React.js, Tailwind CSS, and JavaScript.

Built and maintained RESTful APIs and backend services using Node.js and Express.js within the MVC architecture.

Designed and optimized PostgreSQL and SQL Server databases to enhance data integrity and performance.

Integrated third-party APIs and Firebase Authentication to enable secure, dynamic web applications.

Successfully delivered **8+ full-stack web applications**, demonstrating versatility in both frontend and backend development.

Collaborated with cross-functional teams using Agile methodology to ensure seamless integration and deployment.

Full Stack Web Development Intern
Mount Seir Tech – Jordan | May 2025 – Present

- Contributed to real projects in a startup environment while learning new programming languages and tools.

- Supported development and debugging tasks across frontend and backend under senior developer guidance.

Structural Designer
Al Majal Engineering Office – Jordan
June 2018 – June 2020

- Designed structural layouts and blueprints for residential and commercial buildings.

- Conducted engineering analysis and prepared cost estimations.

- Collaborated with architects and project managers to deliver accurate, construction-ready designs.

Projects

Crime News Platform
A comprehensive MERN-stack news website dedicated to crime reporting, featuring category-based filtering, user interaction, and journalist role management.

- Built with **React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB**

- Implemented **JWT & Authentication** with **role-based access control**

- Developed user dashboards, article interactions (likes, comments, saving), and advanced search filters

- Designed UI/UX in **Figma** and ensured mobile responsiveness

Other Projects:

- **Wayn-Nrooh**: A tourism platform for discovering hidden gems in Jordan. [React, Node.js, MongoDB, Tailwind CSS]

- **Hapirent**: A rental management system for apartments and studios. [React, Redux, PostgreSQL, Tailwind CSS]

Education

Bachelor of Civil Engineering
The Hashemite University, Jordan | Sep 2013 – Sep 2017

Certifications

- Full-Stack Web Development Bootcamp – Orange Coding Academy (in partnership with Simplon.co & PSUT)

- Quantity Surveying

- First Aid
