Full Stack Developer | Software Engineer | Software Developer | Laravel Developer

CAREER OBJECTIVE

I am a Software Engineer graduate from Al-Ahliyya Amman University, ambitious and diligent in the field of software development. I have 3 months of training experience at Double Support Company, where I developed APIs using the Laravel framework. Additionally, I completed an intensive 7-month training program at Orange Coding Academy in full-stack web development. I am currently seeking an opportunity in software development to contribute my skills and learn from an exceptional team.

Core Competencies

Software Development	Critical Thinking	Time Management
Process Evaluation	Problem-Solving Ability	Problem-Solving Ability
Performance Review	Project Management	Effective Communication
Data Analytics Skills	Creativity and Innovation	Attention to Detail
Requirement Analysis	Customer-Centric Approach	Team Collaboration

Technical Knowledge

Programming Languages: HTML, CSS, JavaScript, PHP, SQL,
Database: SQL, MySQL, SQL Server
Operating Systems: Windows
Software Development Practices (SDLC): Scrum, Agile
Other Tools: MS Office (Word, Excel, PowerPoint), Git (Version Control Systems)

Internship

Double Support , Amman   **Jul 2023 – Aug 2023**
Intern, IT Department
<u>**Work Experiences:**</u>

- Intern - API Development using Laravel
- Developed and maintained APIs using Laravel.
- Worked on improving application performance.
- Collaborated with cross-functional teams to ensure product quality.

Orange Coding Academy , Amman   **May 2024 – Nov 2024**
Intern, IT Department

Work Experiences:

- Developed web applications using HTML, CSS, JavaScript, PHP, and SQL.
- Worked on projects using Laravel and React JS frameworks.
- Enhanced user experience and ensured ease of use.

Academic Projects

1) Intelligent Mailbox System (IMS)
Description: The Intelligent Mailbox System is designed to address the inefficiencies in traditional package delivery by providing a secure and technologically advanced solution. This system features a dual-password security mechanism, one for the user and one auto-generated by the system, enhancing security for package delivery. The IMS allows users to remotely manage mailbox operations via a custom application, including viewing delivery history and managing access permissions.

Education & Credentials

University Al-Ahliyya Amman University , Jordan   **2024**

Bachelor's in software engineering

Conferences and Training Attended:

- Google Competitive Programming Contest, Sep 2023 - 2nd Place Award
- Received Certificate of Achievement by Google Developer Student Clubs at Al-Baha University
  - Participated in a comprehensive training program organized by the Google team to prepare for the competition day.
  - Engaged in intensive problem-solving sessions focused on competitive programming questions to assess projects.
  - Completed designated homework using coding knowledge to refine and develop programming skills further.
  - Awarded for successfully attending the Al-Baha University Competitive Programming Competition (BUCPC).
